

it's time for the cloud

Do you need flexibility in your server environment? Then it's time for the cloud. Set up servers easily, copy, move and delete them when you don't need them anymore. Faster than you ever thought possible.

No more long installation times, no more incompatible hardware: it works and it works fast. Freedom is what it's all about: the freedom to use your server the way you want. No more thinking about upgrading hardware, installing more servers or waiting for them: it's all done in matter of seconds. Need more processing power? It's a matter of seconds. The same counts for hard disk space, memory and data traffic. You can combine Windows and Linux installations within your own cloud, to give you the best server for your appliance.

RELIABLE WEBHOSTING

Want to try the possibilities of the cloud?

Go to testyourcloud.com and we will supply you with a free test period in which you will have the ability to test your application.

Why host with Nxs

In the last 10 years, Nxs has proven to be a reliable, flexible and high performance hoster. Many leading companies have committed themselves to trusting their data to our systems. We host over 50,000 different websites, ranging from basic hosting to multi-server redundant solutions.

Our data center is Europe's most energy efficient, offering a EUE (Energy Usage Effectiveness) of under 1.15.

This mean that less than 15% of our energy is used for auxiliary processes, such as air conditioning and lighting. We are the only European hosting company to achieve this extremely low level of power consumption. Nxs' cloud is powered by VMWare vCloud software.

We are both ISO 9001 and 27001 certified, ensuring you have the highest level of protection possible.

cCloud Center	Base	Medium	Plus	XL
vCPU (max)	10 Ghz	25 Ghz	50 Ghz	100 Ghz
vRAM (max)	10 GB	25 GB	50 GB	100 GB
vDisk	200 GB	500 GB	1000 GB	2000 GB
Data traffic	200 GB	500 GB	1000 GB	2000 GB
Linux and Windows	Yes	Yes	Yes	Yes
Automatic snapshots	Yes (5 days retention)	Yes (5 days retention)	Yes (5 days retention)	Yes (5 days retention)
Set-up costs	€ 160,00	€ 160,00	€ 160,00	€ 160,00
Monthly	€ 90,00	€ 210,00	€ 390,00	€ 750,00
Per vRAM hour	€ 0,05	€ 0,05	€ 0,05	€ 0,05
